

Sprint Report #1
Slug Ride
Team Slug Riders
10/21/19

Actions to stop doing:

Have meetings shorter than 30 minutes. Meetings are running long because we are either messing around or don't have a structured to-do list

Actions to Start Doing:

Create To-Do lists before meetings so we can have a better idea of things we have to cover and want to get done.

Use Slack more as a form of communication.

Set up better Time Management with our other courses, so that we can stay on track with our sprint plan

Hold each other accountable to the work they are supposed to be doing

Actions to Continue Doing:

Continue doing group work sections. They have been very productive for us and allow us to bounce ideas off each other.

Continue doing our research in off time to make sure we are using the best technologies we can for our project.

Work Completed/Not Completed:

Not completed: As a user, I need a way to create an account for the app and have my information stored, so that I can use the app and keep track of my information.

Tasks:

- Front-end login screen in React (8)
- Check to make sure email inputted is a student email (4)
- Set up Firebase cloud to store user info (5)

Work Completion Rate:

N/A
