

Release Plan

Product Name: Slug Ride

Team Name: Slug Ride Team

Release Name: SlugRide

Release Date: December 12, 2019

Revision number: 1

Revision Date: October 7, 2019

High Level Goals:

1. Riders and drivers can log in with their school email and make their account (name, picture, phone #).
2. Drivers can make a post with time of departure from a location, price (optional), #seats available, and options for available drop off locations.
3. Riders can comment on driver posts/get in contact with driver.
4. Implement a way for riders to rate/leave reviews for drivers and vice versa.

User Stories for Release:

Sprint 1

- As a user, I need a way to create an account for the app and have my information stored, so that I can use the app and keep track of my information.

Sprint 2

- As a driver, I need a way to post my driving times, so that I can get potential customers to use my service
- As a driver, I need a way to post my prices, so that potential customers know how much my rides will cost
- As a rider, I need to be able to see the price of a posted ride, so that I know whether or not I want to get a ride with them

Sprint 3

- As a rider, I need a way to comment on driver's posts, so that I have a spot saved for me and get a ride.
- As a user, I need a way to see rating and comments on other users, so that I know they are reliable and trustworthy

Product Backlog:

Adding a way to pay through the app directly

Access the my.ucsc portal to authenticate student emails

Potentially allow someone to loan out their car to a student for a given period .
